How big is the Issue? (Across the World)

Covid-19 Could Push Half A Billion People Into Poverty

Additional people in poverty due to a 20% income drop caused by a Covid-19 recession*

* Poverty level - people earning below \$5.50 per day

- Charity group Oxfam has warned that a recession caused by Covid-19 could push an extra half a billion people into poverty - 8 percent of the world's population - unless urgent action is taken

How big is the Issue? – (India)

“We are workers who work to feed ourselves and not beggars.”

A survey conducted on April 9 of 11,000 migrant workers in different parts of the country by *Stranded Workers Action Network (SWAN)* revealed: “50% of workers had rations left for less than 1 day. 72 percent of the people said that their rations will finish in 2 days. 96% had not received rations from the government and 70% had not received any cooked food. Around 98% have not received any cash relief from the government.”

Effect of New Normal on Poor population

- India, like other countries, is trying to curb the spread of the deadly virus by locking down provinces, commuting options, while ensuring supplies of essential commodities
- Well-off Indians isolate indoors, work from home and get groceries delivered
- But Poor laborers amass in the streets, hungry and homeless

Effect of New Normal on Poor population

- Any disruption in food supplies could be especially deadly for the poor
- On the other hand, many Government, Nonprofit organizations and individuals want to help these people, failing to reach the needy, as the need was not known

FIM (Fortune in Misfortune)

- Our solution bridge the gap and make sure the Needy is having one stop place to seek for the help
- The Government/ NGO/ individual contributors will explore the requests and ensure the assistance

FIM - Overview

FIM (Fortune in Misfortune) – Inspired by

If you can't feed a hundred people, then feed just one – Mother Teresa

How it works?

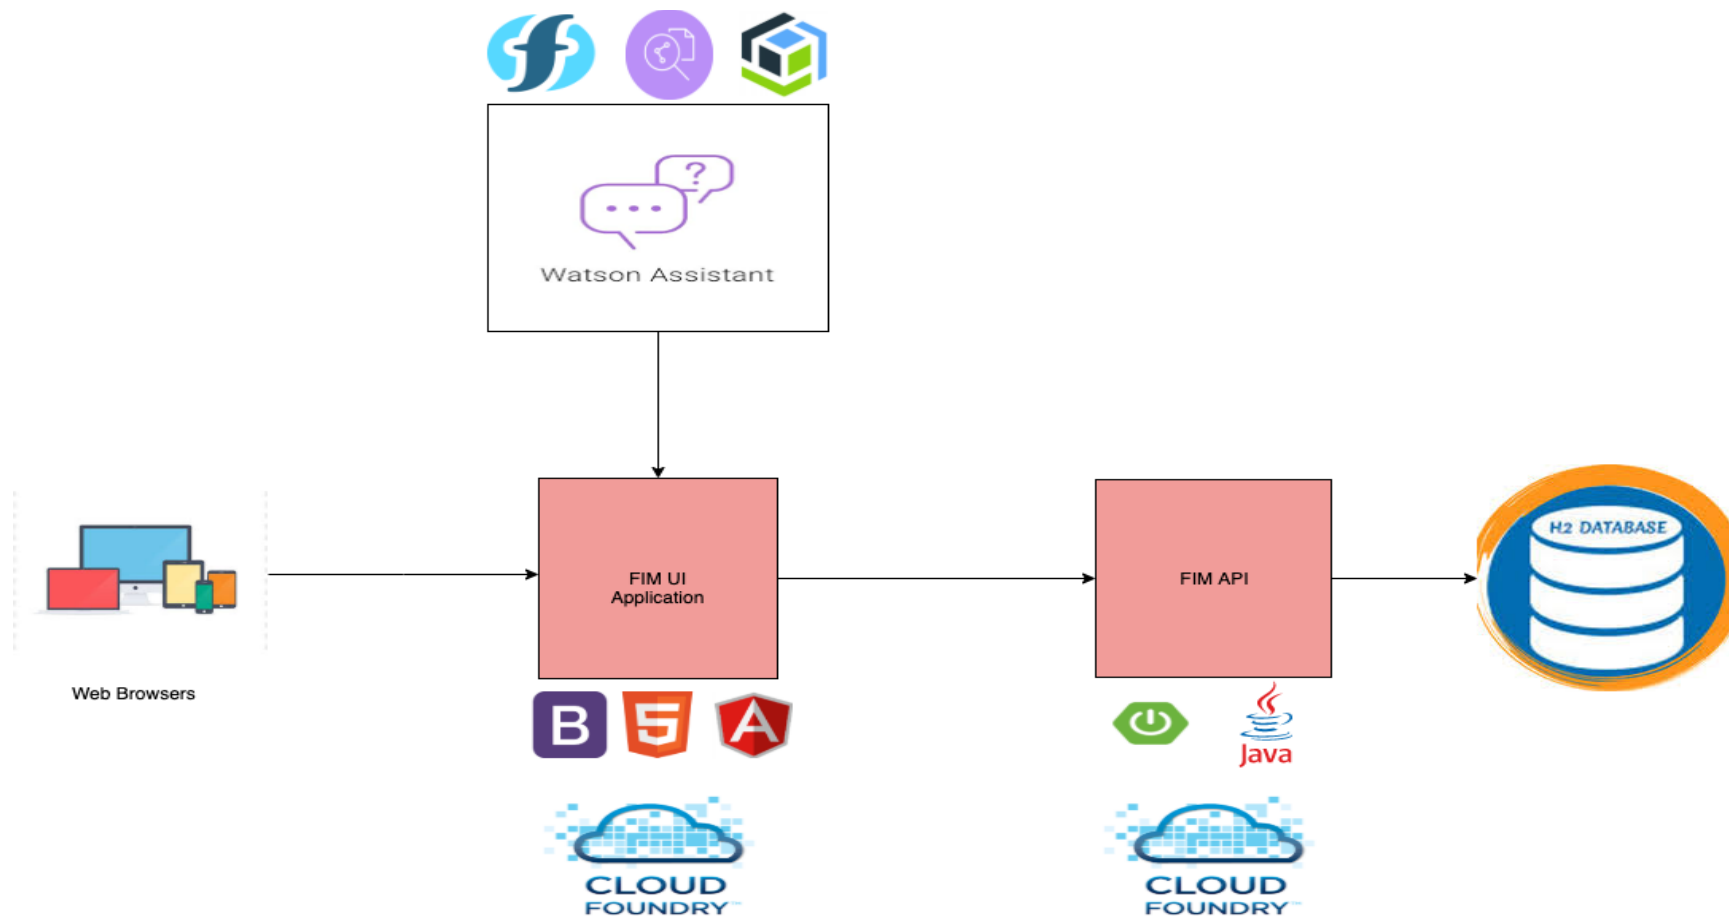

- Needy can register with Unique Identifier (Ration Card Number)
 - Needy's dependents are tagged with Needy
 - Register on FIM with basic details
- Request the need (groceries/ vegetables)
- FIM determines per person consumption and for family based on head count
- Government view the request and fulfils the need

Key Features

- One can place order once in 10 days
- Chat assistant
- Compatible with all digital devices

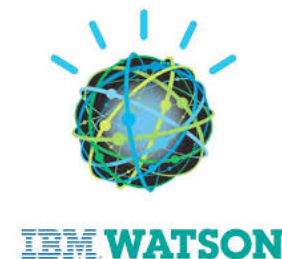

Architecture

Tech Stack

- Frontend (UI)
 - Angular 9
 - Bootstrap
 - HTML
 - IBM Watson Assistant
 - Cloud Functions
 - Cloud Object Storage
 - IBM Watson Discovery
 - IBM Cloud Foundry

- Backend (API)
 - Spring Boot
 - Java 8
 - Database: H2
 - IBM Cloud Foundry

Roadmap

- Authentication upon placing/ receiving the orders
- Placing orders through Voice commands
- Enable the Chat assistant with Dynamic queries like order tracking
- Enable voice integration in the Chat Assistant
- Enable it for all cities in India
- Enable it for NGOs and individual contributors
- Enable it for Medicines delivery (upon prescription)

 Let's understand better, Queries?

Its our Pleasure....
